Compactus Storage Systems

Easy Movement, Smooth Styling

APC Aislesaver® mobile shelving system represents the ultimate refinement of high density mobile storage. It has been designed for the modern office environment to offer a versatile, efficient method of storage allowing quick and easy access to stored goods. This attractive and streamlined design compliments any office layout.

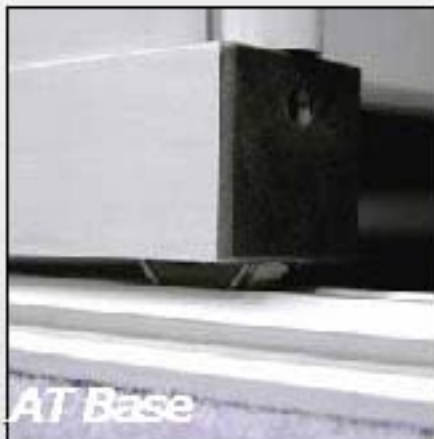

Choose from two 'Ezi' control mechanisms and two Base styles to create the system to suit your requirements:

- Effortless push-pull movement
- Economic way to maximise your valuable storage space
- Easily reconfigured or expanded
- Smooth handle styling

- Ergonomically designed wheel promotes easy operation
- Unique personnel Aisle safety lock disengage mobile units whilst operator is in an aisle.

- Low profile lightweight track system
- Does not require preparation of floor or floor covering
- Easy installation & relocation
- Trolleys & wheelchair friendly
- Can be extended to any length

- Fixed floor track to suit uneven surfaces and heavy loads
- Trolleys & wheelchair friendly
- Heavy duty construction for large bay quantities and loads

Applications

Filing

The foundation of any office environment is an efficient filing system. With various filing methods available, **APC Aislesaver®** is the perfect solution for organising your important documents, ensuring quick, easy access and a tidy office.

Media

Precise storage for catalogued media is a breeze with a complete range of referencing accessories designed to enhance the **APC Aislesaver®** unit media applications.

Small Parts

Storing those critical small parts in a systematic and tidy manner can be challenging. The **APC Aislesaver®** unit, complemented with our Plastic Parts Bins, provides correct, secure and organised storage of small parts, ensuring your staff can quickly and easily locate the parts they need with minimum effort.

Bulky Items

Storage of bulky items is an increasing OHS concern in today's society. With an **APC Aislesaver®**, you can neatly store those awkward items and reduce the strain on your operators with our Ezi-Drive system.

Locking Mechanisms

Our secure locking mechanisms can be supplied to protect your confidential records and restrict access to your important documents. Easily secure those valuable components or equipment and increase your security investment with the turn of a key.

Unique aisle safety locks in the Ezi-Drive system eliminate the risk of injury caused by personnel being 'trapped' in an aisle. Specific to APC, these locks ensure compliance with OH&S regulations and inspire confidence among personnel utilising the system.

Finish

Cyber Grey

Arctic White

All APC Unishelving components are manufactured in our standard Cyber Grey or Arctic White COLORBOND®. Corporate colours available on request.

Quality Australian steel goes into every APC Unishelving® component, making for an incredibly robust shelving system. Supported by ZINCALUME® substrate and a COLORBOND® corrosion inhibitive coating; our quality structural steel normally used in the construction of roofs ensures confidence in a variety of applications.

COLORBOND® and ZINCALUME® are registered trade marks of BlueScope Steel Limited. BlueScope is a registered trade mark of BlueScope Steel Limited.
